

Oldcastle®

APG

A CRH COMPANY

Commercial
Builder Solutions

THE NORTH AMERICAN LEADER IN BUILDING MATERIALS

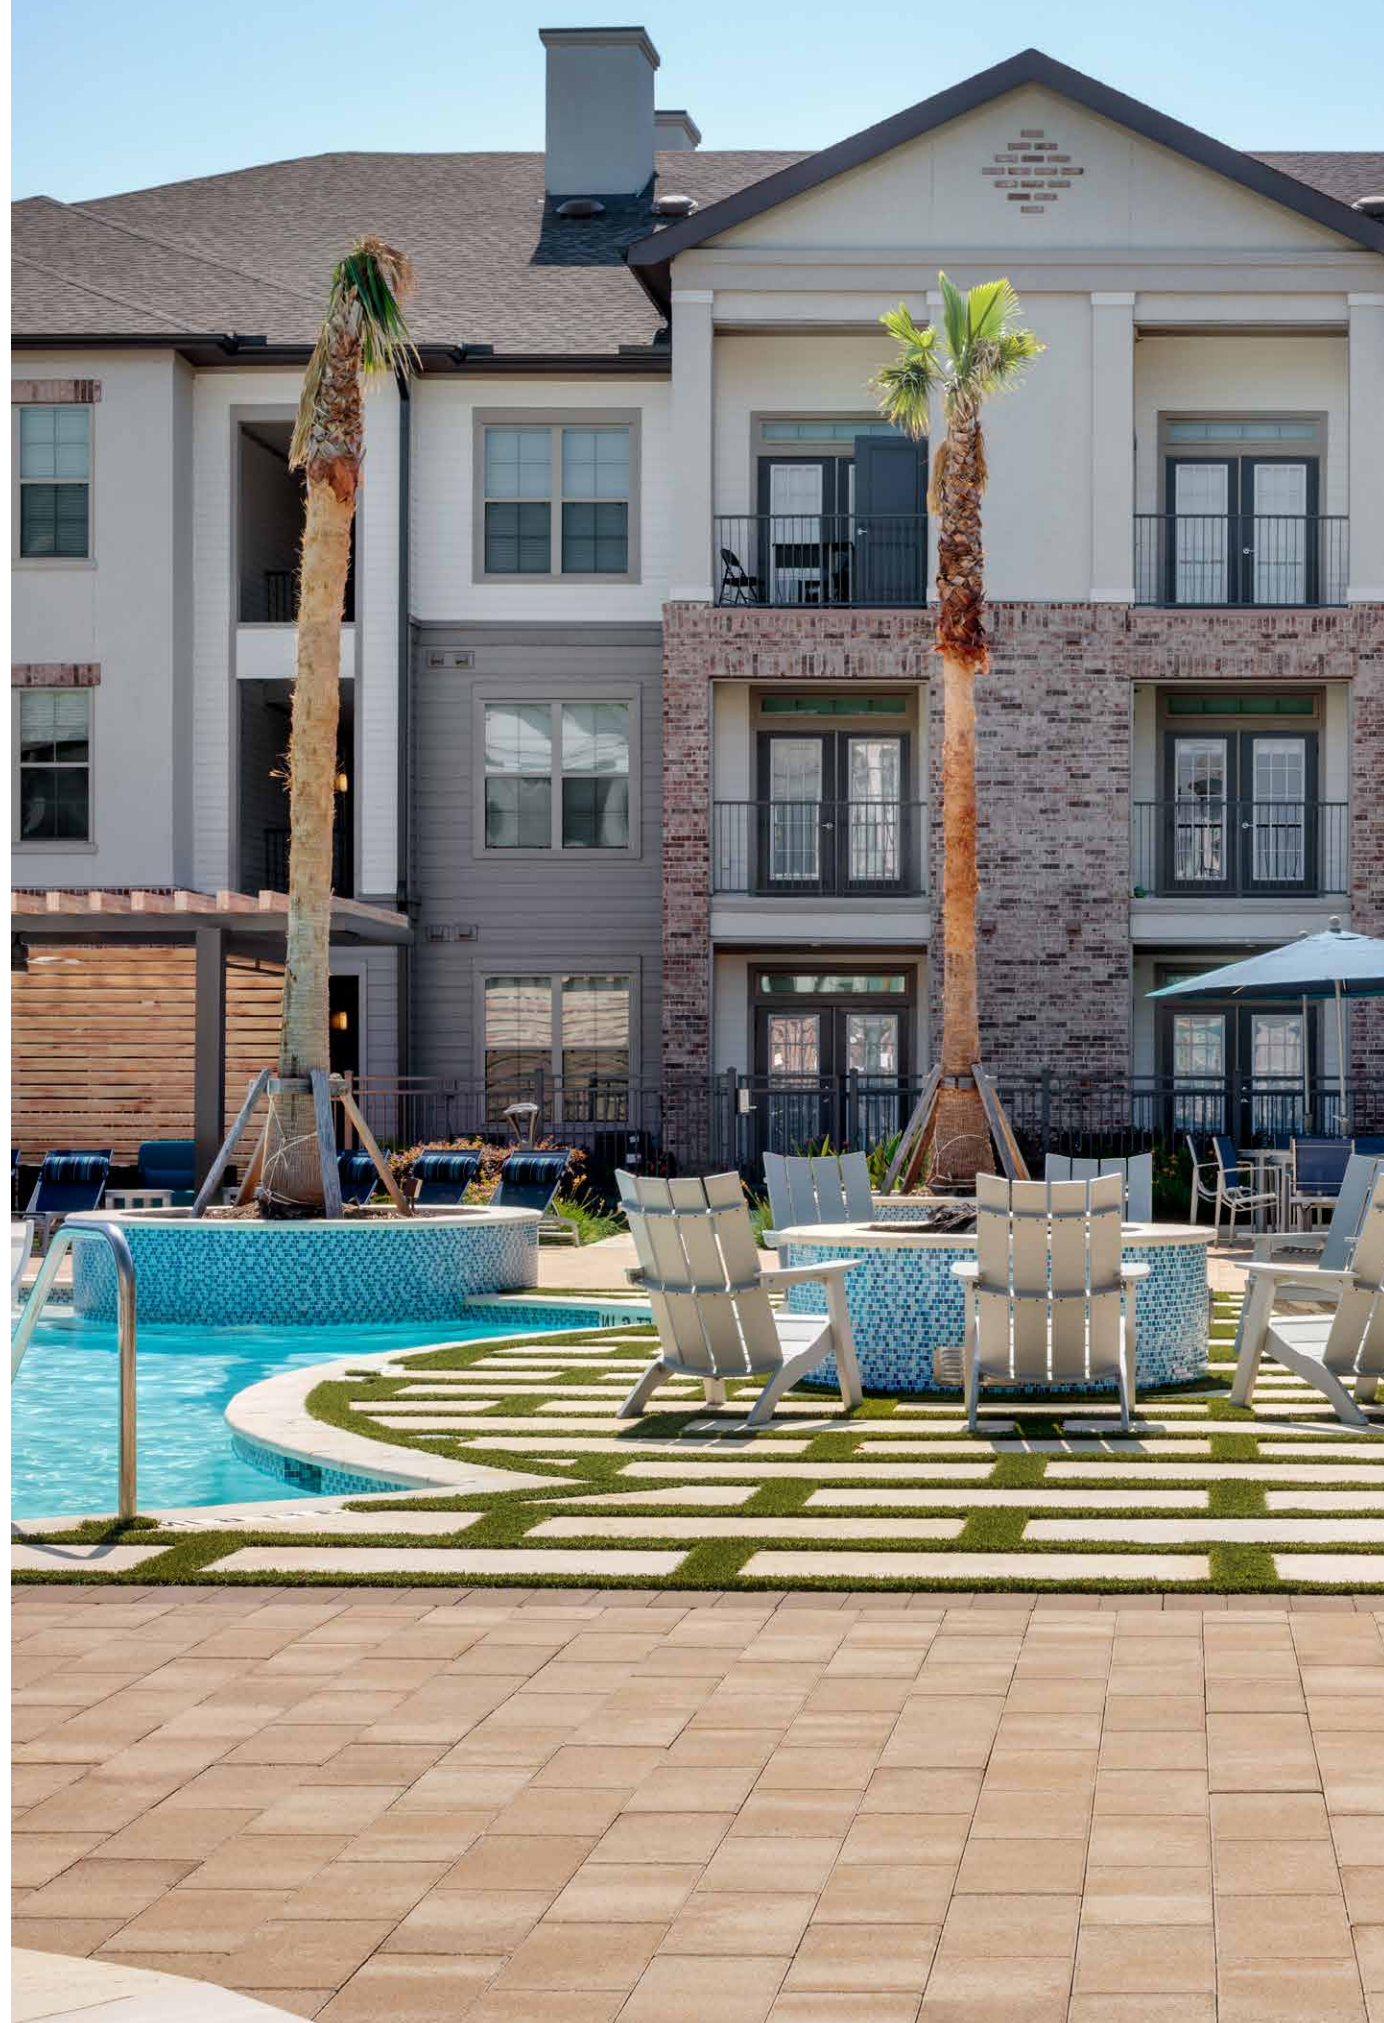

With a complete portfolio of building products, dedicated regional support and extensive sales and marketing support, no one delivers end-to-end solutions quite like Oldcastle APG.

See pages 4-11 for details on all the industry-leading brands in the Oldcastle APG family.

A FAMILY OF BRANDS

Explore this brochure for details on the products and services at your disposal, and to learn more about how we can help your team build from a stronger foundation.

YOUR PARTNER IN COMMERCIAL CONSTRUCTION

Builders across the nation trust their projects to Oldcastle APG for a few simple reasons.

A STREAMLINED SUPPLY CHAIN

Only Oldcastle APG can deliver a complete range of outdoor building products to simplify ordering, logistics and invoicing so you can focus on what you do best: building great projects.

END-TO-END PROJECT SUPPORT

We're with you at every step of the process. From site planning expertise that starts before you break ground to installation and maintenance support to ensure that projects lasts for decades, Oldcastle APG has you covered.

PRODUCTS BUILT TO PERFORM

Quality is at the heart of every Oldcastle APG product, so you can be confident that only the most accurate, durable, beautiful materials are making it to your jobsite.

NATIONAL SCALE, LOCAL SERVICE

No one can match Oldcastle APG's scale. With over 150 manufacturing sites supported by over 1,000 sales pros across North America, we specialize in blending big reach with personalized support.

THE STRENGTH OF CRH

As part of the CRH family of companies, we can connect your team with experts in raw materials, infrastructure and stormwater structures, construction accessories and more for a truly holistic building solution.

Outdoor Essentials for Belgard

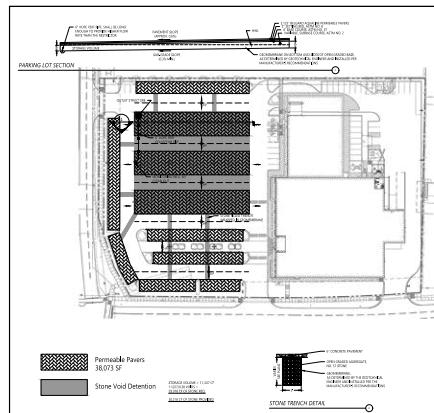

SITE DESIGN SOLUTIONS

SITE STORMWATER MANAGEMENT

Belgard's SWM Pave program helps your engineering team address site planning for stormwater management issues. This includes handling roof water and drainage, managing flat sites without underground conveyance systems, meeting impervious cover requirements, providing geo-reinforced slopes for retention ponds, or even eliminating retention ponds with a permeable paver system.

OPTIMIZING LAND USE

The key to maximizing a site's profit potential is to optimize land use. The experts at Belgard help your commercial engineering team look at a variety of options for optimizing your site with permeable paver systems and segmental retaining walls.

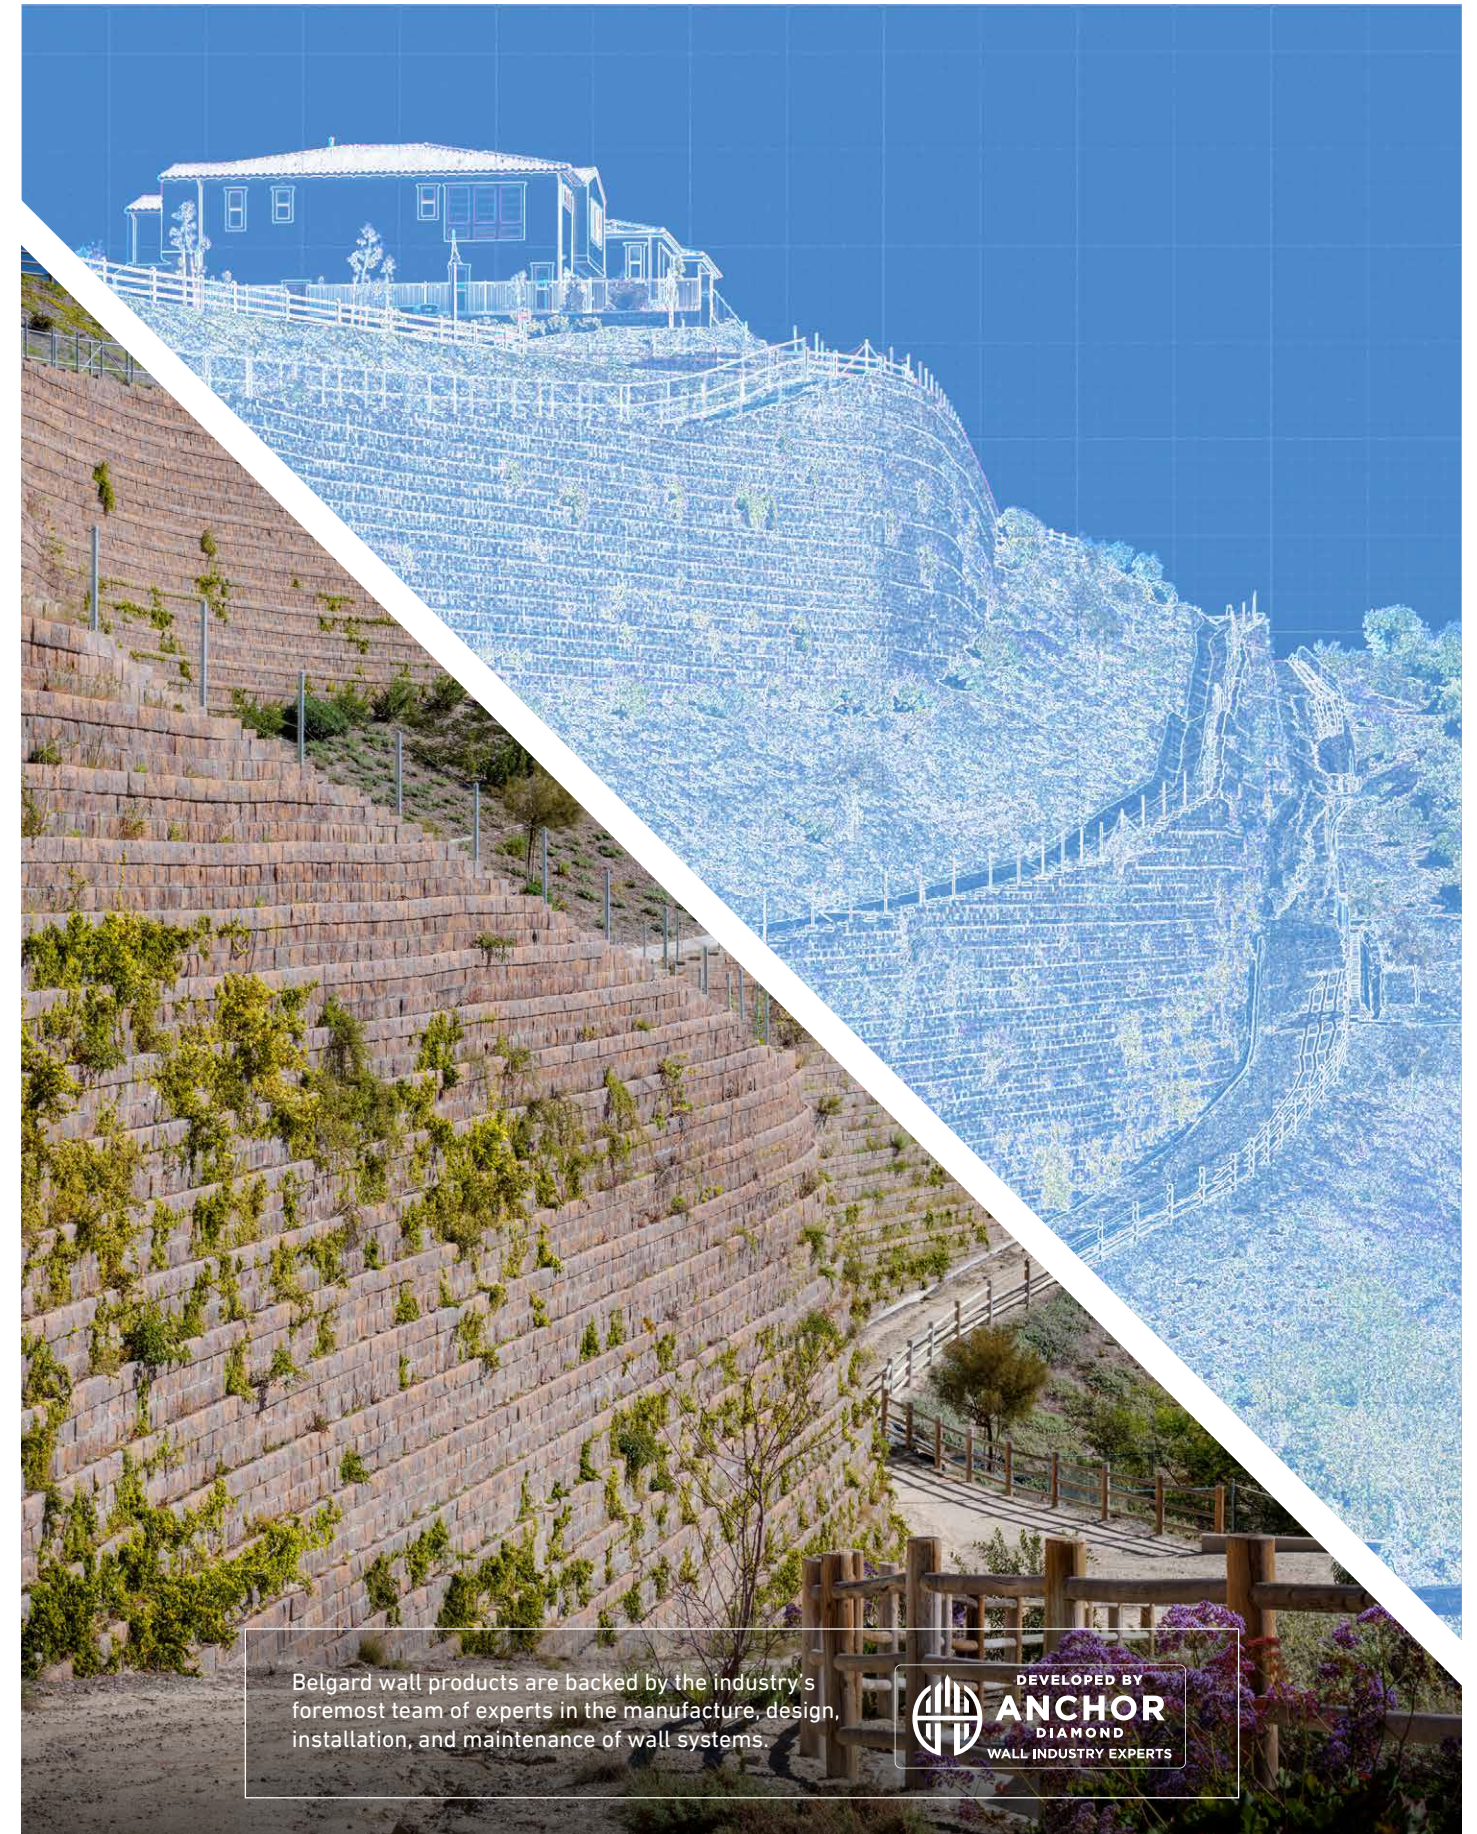

DEFINING PUBLIC SPACES

The creative use of retaining walls and paver patterns can separate an outdoor space into specific use areas, guide foot traffic or create a specialized visual impact. Whatever your site design goals, our team of experts will work closely with your team to create solutions that are both practical and aesthetically pleasing.

ECHELON® MASONRY

MODERN MASONRY TECHNOLOGY

Manufactured stone veneers deliver all of the advantages of natural stone with none of the drawbacks.

SUPERIOR INSTALLATION

Dry cast manufacturing delivers lighter weight, tighter dimensional tolerances and through-body color for durability.

ENGINEERED FOR HIGH ROI

Adding veneer is regularly ranked as one of the top elements for increasing property value – impact that you can pass along to your bottom line.

AMERIMIX®

DITCH THE SAND PILE

Builders across the US have made the switch to pre-blended mortars, stuccos and grouts for a few simple reasons:

- **MIX LESS, BUILD MORE**
Cut mixing time by 50% – just add water and go.
- **SUPERIOR YIELD**
Get 30% more mortar out of every batch.
- **ZERO GUESSWORK**
Eliminate batch-to-batch variations that come with sand pile mixing.
